

Akshay Kashyap M

kishanakshu67@gmail.com | +91 9886056948 | Bangalore, India | github.com/AkshayKashyap18

Professional Summary

AI-Focused CS Undergraduate skilled in backend development, machine learning, and AI systems development. Experienced with open-source LLMs and AI workflows, Fine-tuning building user-centric AI tools. Known for adaptability, clear communication, and thriving in collaborative tech teams.

Technical Skills

Languages: Python, Java, C, JavaScript

Web: React, FastApi, Cloud(AWS), Docker

AI/ML: Hugging Face, OpenAI API, Transformer models

Tools: Firebase, Git, Jupyter, Google Colab, Botpress

Data: SQL, NumPy, Power BI, Excel

Education

B.E. – AI & Data Science, REVA University, Bangalore (2022–2026)

9.58 CGPA

XII – Computer Science, Vidya Mandir, Bangalore (2022)

93.83%

X – CBSE, Air Force School Hebbal, Bangalore (2020)

90.33%

Work Experience

Alrium – AI Developer (From 22/09/2025-Present)

- Developed and maintained scalable backend services using **Python, FastAPI, Supabase, PostgreSQL, and RESTful APIs**, implementing secure authentication, role-based access control, and optimized database operations for high-performance applications.
- Designed and integrated AI-powered systems using **Python, PyTorch, and Transformer architectures, leveraging OpenAI and Google** models for intelligent automation, embeddings, semantic search, and generative AI workflows.
- Collaborated with frontend and product teams to translate business requirements into reliable backend solutions with seamless API integration, validation, and robust error handling.
- Worked with Dockerized deployments, containerized applications, and scalable backend architectures while contributing to API design and system workflow optimization.

Key Projects

MindMate – AI Mental Health Companion

- Full-stack platform for mental health assessments via PHQ-9, GAD-7, and Random Forest model.
- Integrated Botpress chatbot, Vapi voice bot, Clerk auth, and D-ID avatar support.
- Tools: React, Django, Firebase, Scikit-learn, Vapi, Botpress, Clerk, D-ID

EduMorph – Personalized AI Learning System

- AI assistant that converts PDFs into flashcards, quizzes, and summaries.
- Chatbot tutor, learning preference settings, and Groq/OpenAI integration.
- Tools: Next.js, Tailwind CSS, Firebase, Groq API, OpenAI API

MCP Todo – AI Task Management System

- Built an AI-powered task management platform using Model Context Protocol (MCP) architecture for intelligent workflow orchestration.
- Developed scalable backend APIs for task management, contextual execution, and AI-driven automation workflows.
- Tools: Python, FastAPI, MCP, REST APIs, Git

Achievements

- Core Member – Alverse Club (2023–Present):** Led workshops and AI learning events.
- Event Manager – AI-Fest 2024:** Organized AI-themed fests with 100+ participants.
- 3rd Place – SIT Hackathon 2025.**
- Devtrack Club Member:** Contributed to collaborative app dev sprints.

Certifications

AI Fundamentals (IBM) | Big Data 101 (IBM) | Java Programming (Udemy)
